DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 1, lines 7, before "compression", "the" has been changed to - - a - - to comply with proper antecedent basis.

In claim 1, lines 13, before "compression", "a" has been changed to - - the - - to maintain proper antecedent basis.

Allowable Subject Matter

2. Claims 1, 8 – 13, renumbered as 1 – 7 are allowed over the prior art of the record.

3. The following is an examiner's statement of reasons for allowance:

Re claim 1, which recites an "image communication apparatus for compressing video and audio data of an image and transmitting them, a packet data transmission protocol, in which one packet data frame comprises: header data containing information for separating video data and audio data and for synchronizing between a transmitter side and a receiver side; transmission and reception data size information based on a communication speed that varies based on the compression ratio of the video data; compressed audio data and video data; a control index representing information for

indicating an additional operation from the group consisting of an image quality selection, an image retransmission, a privacy mode and a change in the size of video data and designation of conversion of image size data; and control data for notifying the receiver side of data relating to the additional operation, for representing information for requesting a compression ratio of the video data to be transmitted when the control index is controlled to select the quality of the transmitted image, and for representing a sequence number for requesting the image retransmission when the retransmission of the image data is requested in the control index", the limitations as claimed are neither anticipated nor render obvious by the prior art of record.

Claims 8 – 13 depend on independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
